I saw her stand'n there
The heat of passion fills the air
Drawn into her flame—hot
Can't break away from her spell

Wanted by many, but few realize
That her every move is a crime
Ooh, she's so dangerous
She's gonna take me alive

She hides behind innocent eyes
She's armed and dangerous
Her every move is a crime
She's armed and dangerous
Caught in the heat of the night
She's armed and dangerous
She's gonna take me alive

CHORUS:

She's armed and dangerous
She hides behind innocent eyes
She's armed and dangerous
Guilty of sensuous crimes
Ooh, she's so dangerous, dangerous
She prowls through my hear like a thief
Thief in the night

The revolver loads
Then the chamber spins
Explodes
Straight through the heart
Shot
She walks away in the night

Victim of passion a sensuous crime
Caught in the heat of the night
Ooh, she's so dangerous
She's gonna take me alive

CHORUS

I was shot—shot—shot and left for dead
I was shot—shot—fall'n off the edge

CHORUS:

She's armed and dangerous
