

# Can't Do Nothing Right

I've got money  
But just never enough  
Gave you a brand new car  
And now you want a truck

CHORUS:

Oh you're so hard to please  
I sweat bullets, while you freeze  
Baby I can't do nothing right by you

You hate my dog  
Can't stand my friends  
You say I'm better off with you  
Then where I've been

CHORUS:

No, you don't like my shoes  
Or the way I chew my food  
I just don't do things the way you want me to  
No baby I can't do nothing right by you

I kiss your face  
You say my beard's too rough  
Try to make you laugh  
But you say I talk too much

CHORUS:

I give you the blues  
With damn-near everything I do  
Now I just don't see things the way you do  
'Cause baby, I can't do nothing right  
I say black, you say it's white  
Baby I can't do nothing right by you
