Lyrics: Dave Meniketti

As I turn, turn through the pages
Looking back on my life
Even though some have been faded
I still see you on every line

And yes, I know tomorrow
I may not be seeing your face
Until the end of forever

You'll stay with me
In my memories
And if we may not meet again

CHORUS:

I remember
All of those days in my life
I remember
You made me feel everything would be
alright
'Cause I remember the way, how you were
the one
Who could take me away with your smile
I remember,
Remember you

As I go on, on with this journey
You take the weight off my mind
Now I see with every turn
Ooh, just how special you are

And though it's taken a lifetime
To understand all you gave
I'm proud to be a part of you

And I believe
You've taken me
To a place only angels have been

CHORUS:

I remember
All of those times in my life
I remember the simple way that you could
always ease my mind
Yes, I remember the way you were the one
Who could touch me with only your smile
I remember,
Remember you
