

## Wild Child

This old heart of mine  
Has been hurt before  
Never seen the truth  
Behind your open door

I can't wait that long  
To feel your love coming down  
I can't wait that long  
I've seen it before and there's nowhere to run

CHORUS:

Run away, my wild child  
Deep in my heart I know you'll stay  
Lay you out and in a while  
You will make love to satisfy my need

It's just another morning  
I fell awake at dawn  
Your body close to mine  
In absence will I find

I can't wait that long  
To feel your love coming down  
I can't wait that long  
I've seen it before and there's nowhere to run
